

I wish to state my position regarding the challenge of Indiana's telephone privacy act by CONSUMER BANKERS ASSOCIATION. As an Indiana resident, I have two choices for telephone privacy;

- 1) the National Do Not Call List, or
- 2) the Indiana Do Not Call List.

I have educated myself on both laws and have chosen the Indiana list for my Do Not Call preference. My home is not open to unwanted, unsolicited, obtrusive phone calls from commercial businesses. Indiana's telephone privacy law offers that added protection for residents who prefer the added privacy, which is no different than telephone companies who offer listed, non-published, or unlisted telephone numbers.

Indiana consumers have choices and I want to preserve mine. Please keep Indiana's telephone privacy law intact!
